MIT 150 SYMPOSIA

Conquering Cancer through the  
Convergence of Science and Engineering

October 14, 2011

MIT Lecture Hall

Massachusetts Institute of Technology

Saul Hertz  
(MGH/MIT)  
pioneered treat-  
ment of thyroid  
cancer using  
radioactive iod-  
ine treatment

Discovery of  
cellular proto-  
oncogenes that  
are related to the  
transforming  
genes of  
retroviruses.
